

Secondary School Services

Hello Home Economics Teacher!

I'm Taragh Donohoe and run The Craft Cabin in Ballyconnell, Co. Cavan with the lovely and talented Julie & Kris! I'm writing to you today with information on **services we provide to secondary schools.**

From our shop we **sell crafting supplies** and tools to the general public. From yarn and fabric to MDF shapes, embellishments and furniture paint, we have everything a crafter needs. We also **run workshops**, hold birthday parties, organise crafting events for groups and **supply schools with products and packs.**

For secondary schools we provide three services:

- Sewing kits
- Project kits
- Transition year workshops

In the pages overleaf you can read about our sewing kits and project kits. The **sewing kits** contain all of your essential sewing supplies for the beginner sewer in school. We have three price ranges and we can also customize packs to suit your needs.

Our **project packs** are an exciting mix of sewing and related projects that are designed to work within the school curriculum. From simple projects for first years to more challenging projects for senior cycle students, we've a mix of skills, styles and colours to suit all students.

From our workshop in Ballyconnell we also run **workshops for Transition Year Students.** From learning new skills to exploring creativity, we can create workshops to suit your group's needs.

And in addition to all of that we're **happy to customise a project for you.** Perhaps you don't want packs but would like 3m of 4 types of gingham or you've lots of embroidery threads but you need 30 hoops. Whatever you may need for your students we'd love the challenge of putting together a proposal for you. **Get in touch today!**

Thanks for your time!

Taragh

Sewing Kits

We have 3 options with sewing kits - unbranded, branded and with fabric. The contents and prices are listed below.

Alternatively, we can custom make a kit to your own requirements. Just let us know what you want and we can put them together for your students.

All kits are packed into individual ziplock bags with a sewing guide and a place to write your name.

Kit A	Kit B	Kit C

Project Kits

Below are the projects that we currently have available for project kits. However, we will add to this so check our website for new additions. Also, we are happy to custom make packs for any schools so if you have a project in mind, contact us and we can put together something to show you.

Project kits include all the materials necessary to make that project including a set of instructions and or pattern. Every pack is inserted into a sturdy ziplock wallet. A good quality polycotton is predominately used in the projects with a mix of 100% cottons on some projects. A selection of colours are available, which can be chosen when ordered.

- Items like stuffing, cushion inserts, dowel rods and other equipment is not included. Toy stuffing can be bought separately.
- We are happy to tailor make a kit to suit your needs. In addition to the type of project we have listed here, we also do cross-stitch, embroidery, dry needle felting, knitting and crochet.
- Prices excludes delivery cost. Varies based on quantity.

We believe these services could take the headache out of sourcing materials and projects for your students. We are competitive on price and unlike many suppliers of sewing kits we are a dedicated craft shop selling these items day-in day-out. We are happy to share our expertise - and passion for crafting - with teachers, enabling them to spend less time on admin and more class time.

If you would like to discuss your class/school's needs we would love to chat to you. We love a good challenge so if you have something in mind and think we could help, just get in touch. Julie, Kris or I work throughout the week.
